- Free Pressure Treated Ramp w/ each Building.

---

**Q.** Do the windows come with screens?

**A.** Yes

---

**Q.** What do I have to do to prepare the site?

**A.** All we ask is that you provide us with a cleared level within approx 12" from corner to corner.

---

**Q.** How do I tell if the area is level within 12"?

**A.** Stake out the area where you want to have your shed installed. Take a piece of string, hold it at one corner of the staked out area and run it to the next corner. Hang a line level on the string to make sure that it is level within 12". A line level can be purchased at your local hardware store for \$.50 to \$1.00

---

**Q.** Do I have to remove the grass?

**A.** No, we can install the shed on the grass. The grass will die because of lack of sunlight.

---

**Q.** What do I need for the foundation?

**A.** Nothing, we provide concrete blocks and pressure treated 4x4's for the foundation. We lay concrete blocks

approximately every 4' under the pressure treated 4x4's.

---

**Q.** How many pressure treated 4x4's are used for the foundation of my shed?

**A.** 6' and 8' wide sheds have 2 pressure treated foundation beams. 10' and 12' wide sheds have 4 pressure treated foundation beams.

---

**Q.** Do I need a PERMIT?

**A.** We do not require one, but your town might. Check with your local code enforcement officer.

---

**Q.** I would like to put my building on footings. How many do I need? How deep do they need to be placed into the ground? What size do you recommend?

**A.** We can mail or fax you a layout for the footings each size shed is different. The depth is dependant on what your town requires. The height recommended is as close to ground level as possible in order to make all footings level for the shed to be placed on.

---

**Q.** Do I have to pay my states sale tax?

**A.** Yes, we are required by states to charge sales tax because we are installing our product on your property.

---

**Q.** What is the height of the walls?

**A.** 75"

---

**Q.** What is the opening of the doors?

**A.** 70"
